

Leading the Charge

The path to net-zero in uncertain times

Fresh Energy's 2026 Benefit Breakfast

Volunteer Opportunities

Keynote Speaker
Jesse Jenkins

October 8, 2026 at 8 a.m.
Saint Paul RiverCentre

Fresh Energy is seeking enthusiastic and dependable volunteers for our 2026 Benefit Breakfast! This fun, high-energy event raises critical funds that power Fresh Energy's work to shape and drive bold policies to achieve equitable carbon-neutral economies and build a just, prosperous, and resilient clean energy future for Minnesota, the Midwest, and beyond.

Volunteers are crucial to making the Benefit Breakfast a success. Event volunteers help with:

- Event set up
- Greeting guests and checking them in
- Directing attendees to the venue and/or their assigned table
- Helping with the Fair of the Future all-electric showroom
- Event tear down and clean up

As a volunteer, you'll have the opportunity to:

- Attend the event, enjoy a free breakfast, and engage with other clean energy enthusiasts.
- Hear from keynote speaker Jesse Jenkins, a nationally recognized researcher and energy systems modeler, analyst, writer, and professor at Princeton who has played a crucial role in informing U.S. climate and energy policy.

Event details
